## VINI SPUMANTI

### Sparkling Wines

---

#### PETILLANT NATUREL

Pétillant naturel is the oldest method of making sparkling wine. It is also known as the method ancestral or ancestral method. This winemaking technique involves bottling wine that is still fermenting to trap carbon dioxide gas in the bottle, creating a gentle carbonation. Pet-nat wines (as they are called) are becoming more popular as part of the general trend toward natural wine.

#### ITALY

2020 Paltrinieri Lambrusco di Sorbara DOC 'Radice' 85  
*Lambrusco di Sorbara - Sorbara (Modena, Emilia Romagna)*

#### CHARMAT METHOD

The second fermentation takes place in a pressurized tank, rather than in a bottle, decreasing lees contact and producing larger, coarser bubbles. The wine is filtered under pressure and bottled. Also known as the bulk process or tank method. Expect light, less complex flavours.

#### ITALY

NV Il Follo – Prosecco DOC Extra Dry 75  
*Glera – Santo Stefano (Treviso, Veneto)*

## TRADITIONAL METHOD

The labour-intensive process whereby wine undergoes a secondary fermentation inside the bottle, creating bubbles. All Champagne and most high-quality sparkling wine is made by this process. Also known as méthode Champenoise, méthode classique and metodo classico.

#### PINOT NERO

Pinot Noir is one of the most challenging red grape variety for a grower, since it requires a low yield and the utmost care during vinification to produce quality wines. As a cool-climate grape, the wine it produces is light but it is by no means a lightweight. The cool-climate region is very apparent in the natural acidity with aromas of vanilla, cherry, spice, forest floor and truffles.
