### Wine Pairing Experience at Ormeggio

At Ormeggio, we offer three thoughtfully curated wine pairings designed to elevate your journey through our tasting menus:

**European Tour:** exclusively available with the *Ormeggio Classic*, this pairing showcases distinguished wines from across Europe, selected to enhance our most iconic dishes.

**Spotlight on the Yarra Valley:** crafted for the *Tribute to Australian Produce* menu, this pairing highlight some of the finest expressions from one of Australia's most renowned wine regions.

**Gaja Ambassador Pairing:** also available with the *Tribute* menu, this exclusive pairing honours one of Italy's most celebrated producers, presenting a rare opportunity to explore the Gaja family's visionary wines across their iconic estates.

### Our Philosophy

Our culinary vision is shaped by Executive Chef Victor Moya and Head Chef Federico Caracci, guided by acclaimed Chef Alessandro Pavoni. Together, they bring to life two tasting journeys:

*A Tribute to Australian Produce* celebrates Australia's most exceptional ingredients, brought together through Italian tradition and subtle Spanish influences.

*Ormeggio Classic* is a nostalgic evolution of our greatest signature dishes from the past 15 years, reimagined with refined simplicity.

As Head Sommelier, In collaboration with our Beverage Director Ennio Di Marco, we have created pairings that honour the essence of each menu, whether through the elegance of European classics or the vibrant soul of Australia's finest terroirs.

## A Tribute to Australian Produce

## VINI SPUMANTI

### Sparkling Wines

#### PETILLANT NATUREL

Pétillant naturel is the oldest method of making sparkling wine. It is also known as the method ancestral or ancestral method. This winemaking technique involves bottling wine that is still fermenting to trap carbon dioxide gas in the bottle, creating a gentle carbonation. Pet-nat wines (as they are called) are becoming more popular as part of the general trend toward natural wine.

#### CHARMAT METHOD

The second fermentation takes place in a pressurized tank, rather than in a bottle, decreasing lees contact and producing larger, coarser bubbles. The wine is filtered under pressure and bottled. Also known as the bulk process or tank method. Expect light, less complex flavours.

## TRADITIONAL METHOD

The labour-intensive process whereby wine undergoes a secondary fermentation inside the bottle, creating bubbles. All Champagne and most high-quality sparkling wine is made by this process. This process gives flavours of bread dough and toast and makes the wine rich and creamy.

### Franciacorta DOCG

Franciacorta refers not only to a specific wine appellation within Brescia, Lombardia, but also to Italy's highest quality sparkling wine. Given a DOCG status, the area where the grapes are grown is on the hills located between the southern shore of Lago d'Iseo and the city of Brescia.

### VERMENTINO & PIGATO

The origins of Vermentino are uncertain, though it may have been introduced to Sardinia by the Spanish between the 14<sup>th</sup> and 17<sup>th</sup> centuries. Today, it thrives across the western Mediterranean, including northwestern Italy, Tuscany, Sardinia, and southern France. Known for its complexity, Vermentino often draws comparisons to Sauvignon Blanc. Pigato, genetically identical to Vermentino, has adapted to the Ligurian terroir, producing wines with a distinct character.

## CHARDONNAY & Blends

Chardonnay is very resilient and able to adapt to varying soils and climates. In cooler regions shows green apple and citrus aroma while in hotter regions it shows pineapple and exotic fruit. It has a great affinity with oak which adds secondary aromas of hazelnut, vanilla and brioche.

## VINI MACERATI

### *Light Contact and Amber Wines*

*Amber wine, also known as "orange wine," is a unique style of wine made from white grape varieties. It derives its distinct amber hue from extended skin contact during fermentation. This process imparts rich tannins and complex flavours, often reminiscent of dried fruits, nuts, and a slight earthy character. Amber wine offers a textured, intense drinking experience.*

## VINI ROSSI

### Red Wines

---

### SCHIAVA

Schiava is a light-bodied, pale red wine (like Pinot Noir) with aromas of cotton candy, strawberry and lemonhead candy. The wine is very delicate and friendly with many fish dishes. Also called Vernatch or Trollinger.

|      |                                                                                                                    |     |

## PINOT NERO

Pinot Noir is one of the most challenging red grape varieties for a grower, since it requires a low yield and the utmost care during vinification to produce quality wines. As a cool-climate grape, the wine it produces is light but it is by no means a lightweight. The cool-climate region is very apparent in the natural acidity with aromas of vanilla, cherry, spice, forest floor and truffles.

### NERELLO MASCALESE, NERELLO CAPPUCCIO & Blends

Nerello Mascalese is a highly regarded, dark-skinned grape variety that grows most commonly on the volcanic slopes of Mount Etna in Sicilia. Nerello Mascalese is usually blended with a little Nerello Cappuccio in Etna Rosso DOC, which is fruity, has herbaceous flavours, excellent minerality and an earthy nuance.

### ROSSESE

DNA profiling has proven Rossese to be genetically identical to the French Tibouren, but no definitive assumption can be made as to whether the variety is originally from Italy or from France. Wines are characterized by a pale ruby colour, bright acidity, floral aroma, red berry fruits, herbs, spices and a distinctive savoury note.

## NEBBIOLO

Nebbiolo is one of the finest, a well-known Italian variety. It was already being cultivated in Piemonte by the time of the Romans. This classic variety produces the two great acidic and tannic wines, Barolo and Barbaresco. With legendary longevity, they need to spend a certain length of time in bottle to allow their bouquet to develop.

## CESANESE

Cesanese is a red wine grape variety indigenous to the Lazio region of Italy, prized for its deep ruby colour and aromatic profile that typically showcases notes of red berries, violets, and sometimes spicy undertones. This grape is used primarily to produce medium-bodied wines that are appreciated for their acidity and tannins, making them versatile partners with food. Cesanese wines are relatively rare outside Italy, offering a unique glimpse into the local viticulture of the Lazio area.

## SUPERTUSCAN

Supertuscan refers to high-quality wines from Tuscany that often break traditional DOC or DOCG regulations. Typically blends of international grapes like Cabernet Sauvignon or Merlot with local varieties like Sangiovese, these wines are known for their bold structure, complex flavours of dark fruit and spices, and excellent aging potential. They embody innovation and craftsmanship, offering a modern interpretation of Tuscan viticulture.

### CORVINA, MOLINARA, RONDINELLA & Blends

Corvina is an Italian red wine grape most famous as a key constituent of Valpolicella wines, along with Molinara and Rondinella. Its most commonly cited characteristic is its sour cherry flavour, as well as its lack of colour and tannin. The variety also lends itself well to the *appassimento* process of air-drying grapes, used to make the famous Amarone wine.
