PETILLANT NATUREL

Pétillant naturel is the oldest method of making sparkling wine. It is also known as the method ancestral or ancestral method. This winemaking technique involves bottling wine that is still fermenting to trap carbon dioxide gas in the bottle, creating a gentle carbonation. Pet-nat wines (as they are called) are becoming more popular as part of the general trend toward natural wine.

AUSTRALIA

2021	Haddow Dinnen – 'One Hundred Days' <i>Pinot Noir, Pinot Gris – Yorktown (Tasmania)</i>	124
------	---	-----

CHARMAT METHOD

The second fermentation takes place in a pressurized tank, rather than in a bottle, decreasing lees contact and producing larger, coarser bubbles. The wine is filtered under pressure and bottled. Also known as the bulk process or tank method. Expect light, less complex flavours.
